Polish Academy of Arts and Sciences

Dear colleagues, dear friends!

On behalf of the National Academy of Sciences and all scientific community of the Republic of Armenia it is my pleasure and a great honor to congratulate you on the 150th anniversary of the establishment of the Polish Academy of Arts and Sciences.

During the years of its existence, the Polish Academy of Arts and Sciences has made a glorious journey, achieving remarkable successes in the most advanced scientific directions. It is a leading scientific center which influences Poland's economic, technological, social and cultural development.

Since many years, the Polish Academy of Arts and Sciences provides a high level of fundamental research, promote the conduct of current scientific research in the interest of the country, with the introduction and use of various means for implementing scientific and innovation policy.

The Academy's glory consists of the authoritative scientific community with accomplishments in the different areas of science and technology as well as social science, humanities and arts.

There are longstanding bonds of friendship between Armenia and Poland, which succeed in developing and making a valuable contribution between the two countries.

As we congratulate you once again on your glorious anniversary, we wish you great success and further scientific accomplishments.

We are confident that the Polish Academy of Arts and Sciences will develop for the benefit of your country and worldwide civilization!

Yours sincerely,

The President of the National Academy of Sciences of the
Republic of Armenia, Academician

A.S.Sagyan
